

# AI Automation & SaaS Integration for E-Commerce Company

## PROJECT DETAILS

 AI Development

 Oct. 2025 - Jan. 2026

 Confidential

*"DBot was detailed in their approach to understanding our requirements and provided proactive advice."*

## PROJECT SUMMARY

DBot provided AI automation and SaaS integration services to prepare an e-commerce company's product. Their work included backend integrations, automation, and data sync security.

## PROJECT FEEDBACK

DBot delivered the project on time, meeting expectations for feature capability and data sync. The team managed the project well, breaking it into biweekly sprints and using red-yellow-green reports to track progress. They communicated effectively via virtual meetings, emails, and messaging apps.

## The Client

Introduce your business and what you do there.

We help SaaS companies and agencies turn partnerships into structured growth engines. Through strategic design and operational frameworks, we build partnership functions that drive measurable revenue, from go-to-market (GTM) strategy and partner programs to enablement, measurement, and ecosystem alignment.

## The Challenge

What challenge were you trying to address with DBot?

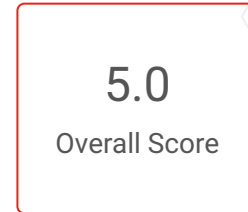

We needed help with AI automation and integration of our SaaS solution to get the product ready for production.

 Founder, E-Commerce Company

 eCommerce

 London, England

### CLIENT RATING

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

## The Approach

### What was the scope of their involvement?

DBot helped us with AI automation and integration of our SaaS solution to get the product ready for production. The team was detailed in their approach to understanding our requirements and provided proactive advice on a solution to get the product ready within the timeline we had set out. DBot was responsible for backend integrations, automation, and security of data sync.

### What is the team composition?

We worked with 2–5 teammates from DBot.

### How did you come to work with DBot?

We found them through a referral. We chose them over other options because they had high ratings, a great culture fit, and good value for the cost.

### What is the status of this engagement?

We worked together from October 2025–January 2026.

## The Outcome

### What evidence can you share that demonstrates the impact of the engagement?

DBot delivered on time, feature capability, and data sync.

### How did DBot perform from a project management standpoint?

We broke down the project into biweekly sprints. We used red-yellow-green (RYG) reports to track progress during the sprints. We communicated via virtual meetings, emails, and messaging apps.

### What did you find most impressive about them?

DBot was detailed in their approach to understanding our requirements and provided proactive advice on a solution to get the product ready within the timeline we had set out.

## Are there any areas they could improve?

No, there weren't any.
